ABOUT ME

I am studying for a bachelor's degree in Computer Engineering and Artificial Intelligence with hands-on experience in both frontend and backend development. Throughout my internship, I have developed mobile applications using React Native and worked with modern technologies like NeonDB, Drizzle ORM, and Hono to build scalable and efficient solutions.

INTERNSHIP

Software Developer   SEP 2024 - PRESENT
Thaidotrun Co., Ltd.

- Developed frontend and backend for mobile app using **React Native**
- Integrated **NeonDB** for efficient data management and retrieval
- Utilized **Drizzle ORM** for optimized app-database communication
- Built scalable backend API using **Hono**, focusing on performance

PROJECT EXPERIENCE

Travel website mini project

- Develop a tourism website for Laan Saka District, Nakhon Si Thammarat Province, using HTML and Bootstrap 4

Music player Mobile Application

- Develop a music streaming application using Flutter and MySQL database system.

IoT-Based Intelligent System for Real-Time Parking management

- Develop a real-time parking management system using IoT technology to enhance efficiency in parking management by providing comprehensive data to users via a website. Languag
